Communication Procedure
For Facilities Related Emergency Events and Activities

I. Purpose

This policy establishes the procedure for notifying the University community of Facilities emergency-related events and activities. The procedure applies whenever Facilities events or activities require that the University community immediately be notified of an emergency.

Some emergencies may not require campus-wide communication or formal publication. A determination will be made by the appropriate Facilities staff including, Associate Vice President for Facilities, Assistant Vice President for Facilities, directors, and supervisors, at the time of the emergency.

II. Notification Procedure

A. Facilities staff and/or customers contact Facilities Work Control at 210/458-4262 to report an emergency.

B. Work Control dispatches Facilities staff/trade(s) and reports the emergency to the following Facilities staff:

III. Notification Process

The appropriate director or designee will notify the Assistant Vice President for Facilities and/or the Associate Vice President for Facilities of the emergency and coordinate with the FCCRR for campus notification. The FCCRR is responsible for processing campus-wide emergency notifications on behalf of Facilities.

Once all information is received, FCCRR will process the notification as follows. If time does not permit processing of written notification the FCCRR will contact the UTSA Office of University Communications and Marketing (Publications) via telephone at 210/458-4550 for immediate dissemination of emergency related information.

A. FCCRR will email emergency notification to AVPF for review/approval.

B. Once approved by AVPF, FCCRR will email publication request to the UTSA Today and UTSA News via email at utsa.today@utsa.edu for publication consideration.

C. To follow-up on a publication contact: Victoria O’Connor, FCCRR at: 458-4261 or victoria.oconnor@utsa.edu.
