

### **Frio St. Project Update: Houston Street and Frio Street Partially Closed June 1, 2017**

The City of San Antonio will shut down a portion of Houston Street and Frio Street on June 1, 2017 from 7:00 a.m. until 6:00 p.m. for CPS and water main work related to the Frio Street project. Houston Street will be shut down both ways from Frio Street to Leona Street for CPS work. Vehicular traffic will be detoured to Martin Street.

The southbound right lane of Frio Street will be closed from Commerce Street to Buena Vista Street for water main work. Once that work has been completed, the southbound right lane will reopen and the northbound right lane be closed for continued work. Frio Street will remain open to two lanes throughout the partial closures. Per the City of San Antonio, "all work is subject to favorable weather conditions."
