Main Campus Natural Gas Testing Begins May 29, 2024

Natural gas to buildings will be shut down in small segments for testing, as mandated by the State Fire Marshal Office (SFMO), starting Wednesday, May 29, 2024 and ending on Friday, May 31, 2024. The shutdowns will affect comfort heating, domestic hot water, autoclaves, kitchen equipment using natural gas and emergency power generators.

Facilities will coordinate the exact date and time of each shut down with building occupants. Only natural gas will be impacted. All other utilities, including other compressed gases, will remain operational and available for use. For additional information, reference the list below or contact the Facilities Service Center at (210) 458-4262.

Natural Gas rolling outages May 29-31, 2024

Alvarez Residential Hall (ARH)
Applied Engineering & Technology (AET)
Biotechnology Sciences & Engineering Bldg. (BSE)
Business Service Annex (BSA)
Center for Archaeological Research (CAR)
Central Receiving & Warehouse (CRW)
Engineering Building (EB)
